High School Credit Options

Students who successfully complete high school level courses taught at the middle school receive high school credit that will be posted to their VHS transcript. These courses would typically include Algebra and Physical Science.

High school level courses taken in 7th or 8th grade are treated the same as courses taken in grades 9-12. The course title and credit attempted is listed on the transcript and the grade earned in the course is included in the calculation of the student's GPA.

At the request of the student and the student's parent or guardian, high school credit earned before high school may be transcribed with a nonnumerical grade of a P (pass) OR be removed from a student's transcript. If a "P" grade is chosen, a nonnumerical grade will not be included in the student's high school grade point average calculation. High school credit earned prior to high school and transcribed with a nonnumerical grade *will* apply to fulfilling high school graduation requirements.

It is the responsibility of the parent or student to make the request to change a grade to "P" or to have the course and grade removed from the transcript **prior to the end of the student's 11th grade year**, otherwise, the posted grade and GPA calculation will remain.

Please submit this form to the main VHS office or your student's counselor.

Student's name _____

Course(s) that you would like changed to have changed: _____

Type of change you would like to make (circle one): Change to P grade//Remove Grade

School where course(s) was (were) taken: _____

Parent signature: _____

Date submitted: _____ HS Principal signature: _____
